Product portfolio

Fire & Security Products EMEA offers a comprehensive range of electronic security, fire and life safety products through trusted brands including Aritech, NetworX, Lenel, Ziton, Kilsen, EST, TruVision, IFS and Supra. Our robust product offering is designed to protect and secure businesses, homes and people with a full spectrum of security, fire and life safety applications that lead the industry in innovation and reliability.

Intrusion detection

Our reputation for Aritech intrusion detection technology is unsurpassed. Our extensive detection and alarm panel portfolio delivers precise and reliable intrusion detection and alarm reporting for a wide range of applications, even in difficult conditions.

Video surveillance

We offer a full range of commercial and enterprise video surveillance solutions: local, distributed and centralised digital recording, indoor and outdoor PTZ, dome and fixed cameras and all other accessories needed to build analogue, hybrid or full IP video solutions.

Transmission

Our IFS product range offers a full portfolio of video, data and audio transmission solutions including single mode or multi-mode fiber network components, media converters, network switches and UTP communication devices.

Access control and key management

Our Lenel access control portfolio ranges from hardware solutions embedded with intrusion detection to software solutions with integrated video, and is scalable from small to multi-site and multi-national environments. The Supra key management solutions such as mechanical key boxes for small business applications or high-end electronic systems complement this offering.

Fire detection

Our fire detection product portfolio features state-of-the-art detection sensors and high quality alarm control systems, which can easily be integrated with each other. All fire detection solutions are geared towards extinguishing systems using water, foam or gas.

Committed to compliance and local regulations

In response to an increasingly challenging regulatory environment, Fire & Security Products EMEA ensures that its product range evolves accordingly in order to meet EN and local security approvals, such as:

- **Europe:** EN50131-1, EN50136, EN54-series, CPD
- **Belgium:** INCERT, BOSEC
- **Czech Republic:** NBU_CZ
- **France:** NFA2P
- **Germany:** VdS
- **Hungary:** MABISZ
- **Italy:** IMQ
- **The Netherlands:** REQ
- **Poland:** Techom
- **Scandinavia:** F&P, FG, SBSC
- **Slovakia:** NBU_SL
- **UK:** PD6662:2010, ACPO/BS8243
- **US:** CSFM, FCC, FM, IC, UL, ULC

Solutions designed to meet all needs

Security starts long before the first detector, card reader or camera is installed. It starts with a relationship – and a good relationship starts with the right partner. Fire & Security Products EMEA is a trusted partner on whom businesses and home owners can count, to assess risk levels of their sites and propose optimum solutions designed to protect people, assets, communities and infrastructures.

The perfect partner

Bringing tailored market solutions to customers is all about “solving problems”. Fire & Security Products EMEA deploys leading-edge technology to develop reliable and customised solutions. Its international Research and Development team keeps abreast of technology developments in order to provide best-fit and cost effective solutions.

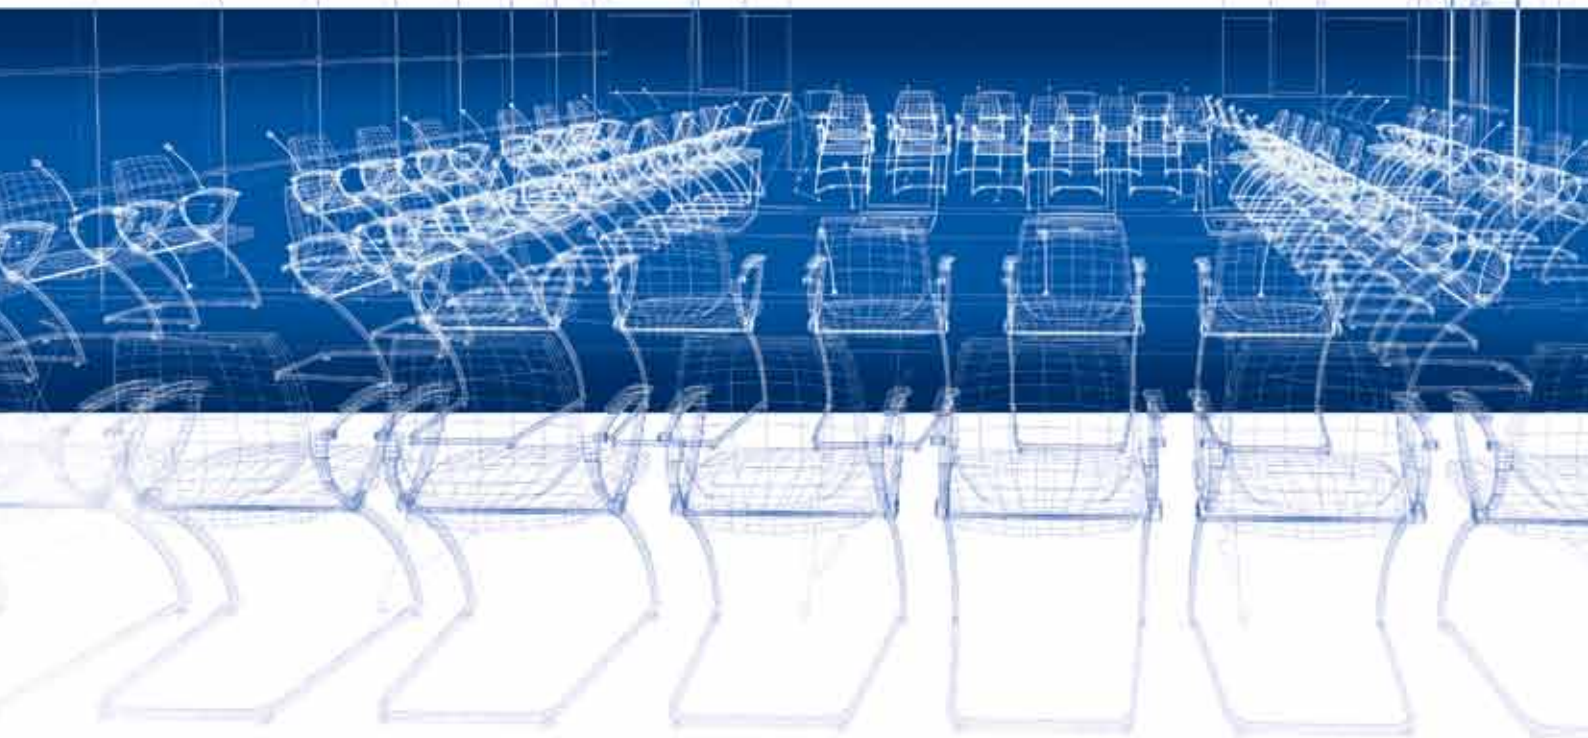

Training University

Products and solutions from Fire & Security Products EMEA are continuously improving with new features and functionalities. Recognising the importance of sharing knowledge and expertise, our Training University offers a wide range of highly informative and in-depth training courses.

Our trainers are industry experts with thorough product knowledge and field experience and our training facilities are equipped with modern infrastructure and tools. Every technical training is supported with product panels for each participant.

Our courses provide the opportunity to learn all about the products while refreshing an understanding of underlying technologies, and certification provides a competitive advantage for the success of customers' businesses.

Pro Express

One address, one-stop shop, Pro Express offers convenience for local security professional installers, answering their needs by offering easy access to a selected range of electronic security products in a business-to-business service outlet.

Pro Express carries a permanent stock of high volume items, provides on-location technical product support and assistance with security projects, and accommodates a live product demonstration area. Our Pro Express technical advisors are there to help with product knowledge, field and project experience.

The Pro Express state-of-the-art demo room provides the ideal setup to discuss projects with our security specialists, and simulate specific design requirements or product functionality.

References

Fire & Security Products EMEA has become a trusted partner for national and multinational companies serving a broad range of market segments. We work closely with our customers to understand continuously changing needs and provide solutions, via our extensive partner network.

We fine-tune concepts and product solutions to meet customers' requirements, independent of site size, architecture, location or activity and we are proud to share key case studies upon request.
