AS366M

Sounder-beacon, multi tone, shallow base, mains powered

General

The AS366M is a general purpose, mains powered, electronic sounder and LED beacon.

Efficient and versatile

The AS366M provide high sound output at a low current, thus reducing power requirements and system cost. The AS366M sounder/beacon is supplied with a volume control as standard, allowing final audio adjustments to be made during installation.

With a choice of 32 different tones (see tones table in manual), which are switch selectable, the required tone can be selected during installation.

The mechanism for locking the sounder/beacon to the base, can be activated if required. Once activated, a special tool is required to remove the sounder from the base.

The AS366M sounder/beacon utilises a full faced translucent sounder case, giving a much larger lens area and a greater spread of light.

Standard Features

- High sound output
- 32 Tones user selectable
- Automatic synchronisation
- Volume control
- Anti-Tamper locking mechanism
- Shallow mounting base
